THE
MATHEMATICS
STUDENT

EDITED BY
M.K. SINGAL

VOL. XL A (1972)
(An Additional volume for the year 1972)

(Issued December, 1972)

PUBLISHED BY
THE INDIAN MATHEMATICAL SOCIETY
This volume of
THE MATHEMATICS STUDENT
is dedicated
to
the memory of
LATE PROF. V. RAMASWAMI AIYER
(1871—1936)
founder of the Indian Mathematical Society
on the occasion of his birth centenary

A.H. Siddiqi: A note on Hardy's theorem for the arithmetic means of fourier co-efficients 111
Rekha Panda: Some special properties of generalized polynomials $A_n(x)$ 114
M.A. Simari: Definite integrals involving generalised E-functions 119
Manilal Shah: On some problems leading to certain results involving generalized Meijer functions of two variables and associated Legendre functions 124
Aruna Srivastava: On finite integral involving products of $n$-Bessel functions 134
P.C. Munot and R.K. Saxena: An operational formula for Jacobi polynomials 139
G.K. Dube and C.K. Sharma: On fourier series for generalized Fox $H$-functions 147
Manilal Shah: On generalized Meijer's $G$-functions of two variables and generalized Legendre's associated functions 157
R. U. Verma: Some theorems on fractional integration and a generalized Hankel transform of two variables 169
H. N. Nigram: Integrals involving Meijer's $G$-functions and integral function of two complex variables-II 179
Charanjit Lal: Double integral representation of Kampé de Ferrié function 186
O. Shanker: General integral involving Kampé Ferié function 193
R. P. Singal: Transformations of double hypergeometric functions 200
S. L. Soni: An integral involving the product of $H$-functions 203
H. C. Chaturvedi: An elementary solution of dual series equations involving Laguerre polynomials 208
C. S. Venkataraman and R. Sivaramakrishnan: An extension of Ramanujan's sum 211
Maya Lahiri: Expansions of certain functions in a series of generalised Hermite polynomials 217
A. K. Bagchi: Short note on Barne's $G$-function and Gauss's multiplication theorem on $\gamma$-function 222
K. A. Narayan: On an application of proximate orders 225
Asha Rani Singal and Shashi Prabha Arya: Some new separation axioms in topological ordered spaces 231
C. K. Sharma and P. M. Gupta: On certain transformation formulae and Fox's $H$-function of two variables-II 239
Mira Bhargava and H. Kauffman: Rational solutions of the Riccati equation 253
B. K. Joshi: Flow of a radiating gas past thin wedge 257
S. K. Nahar: A note on transformation relations for the solution of general complex Riccati differential equation 266
R. U. Verma: On some properties of generalised Hankel Transform III 268
A.K. Bahal and R.N. Pandey: Properties and expansions of the generalised polynomial $C_n(x, y)$ 275
S.L. Gupta: An inversion theorem involving determinants 283
P.R.P. Rao: An orderly linear differential equation of the second order 287
V.V.L.N. Rao: A property of self-reciprocal functions 289
F. Singh: On some results associated with a generalised Meijer function 291
D.P. Goyal: A note on the integral equation with a Cauchy Kernel 297
V.V.L.N. Rao: A property of self-reciprocal functions 301
MINAKETAN DAS: The number of real zeros of a class of random trigonometric polynomials

Y.B. REDDY: A note on linear differential equations

K.C. RAY AND: On restricted measurability in lattice

B.K. LAHIRI

R.P. SINGAL: Transformation formulae for the modified Kampé de Feriêt function

BABBAN PRAasad

MISHRA: The summability (A1) of the Fourier series and the first differentiated Fourier series

B.L. GUPTA: A note on Goddard theory

M. K. NAYAK: On the absolute Riesz summability of some series associated with a Fourier series and its allied series
